Advance construction services contracting LLC
Mussafah industrial area, abudhabi

Dear hiring manager,

As enthusiast of occupational health and safety initiatives, I was excited to see your posting for the position of safety officer. I believe I can help with occupational health and safety upcoming challenges in your organization. I have experience with leading a successful construction and property maintenance team, implementing and maintaining a safety management system that helped in making the workplace safer for everyone. Moreover, due to the safety procedures and risk control measures I put in place ; I was able to prevent upkeep property maintenance LLC from incurring some losses associated with poor workplace health and safety.

In my previous position as a safety officer at upkeep property maintenance, I created and implemented safety programs, conducting safety audits, carried out risk assessment, investigating accidents, educating employees on safety procedures and promoting a safe work environment. Due to the proper safety programs and safety procedures I implemented, our employees were able to return home each day safe to their families and upkeep property maintenance did not undergo any direct or indirect cost associated with non-compliance of the occupational health and safety laws and regulations.

I would be so happy to have the opportunity to discuss your company health and safety objectives and show you how my success at upkeep property maintenance can translate into workplace health and safety growth for Advance construction services contracting LLC.I have included my resume for your consideration.

Kind regards,

Federick Atali Tiku.
